Sergio Andrés Martínez

Mosquera, Cundinamarca, Col · linkedin.com/in/samsdq/ · +57 321 267 92 83· dialstudios@gmail.com

I am Sergio Martinez, a full-stack JavaScript developer passionate about using technology as a tool for socio-economic change and solving real-life problems. My expertise lies in web development with proficiency in ReactJS, Node.js, and SQL. I also have experience in back-end development using Next.js and deploying applications on Vercel and AWS.

I have a keen interest in UX/UI design and enjoy crafting user-friendly and visually appealing interfaces. With strong project management skills, I mentor junior developers in agile environments, ensuring efficient project completion. Outside of work, I enjoy diversifying my knowledge in relevant fields and engage in activities such as sports, research, and critical thinking.

PROFESSIONAL EXPERIENCE

Fracttal   Medellín, Colombia
Senior Front End Developer   *Aug 2023 – Apr 2024 / 9 months*

- Designed and developed a UX component system based on atomic design for the Fracttal One application, using React.js, Redux, Sass, HTML, JavaScript ES6, TypeScript, Storybook, and Node.js.
- Implemented and documented components, training other developers in their use and ensuring effective integration into React Native projects.
- Optimized application performance, reducing load time by 20% through advanced code optimization techniques.
- Maintained and improved existing React applications, fixing bugs and updating dependencies, resulting in a 30% decrease in production incidents.
- Facilitated collaboration between design and development teams, ensuring the accurate implementation of design specifications and improving system interoperability.

FacTECH   Bogotá, Colombia
Senior Front End Developer   *Oct 2022 – Apr 2023 / 7 moths*

- Developed, built, and maintained web applications using React.js, Next.js, CSS, HTML, JavaScript ES6, GraphQL, and Node.js.
- Implemented innovative frontend solutions, enhancing user experience and optimizing application efficiency.
- Collaborated closely with backend and design teams, ensuring consistency and functionality of user interfaces.
- Documented and trained other developers in best practices and efficient use of modern technologies.
- Improved application performance, achieving significant reductions in load times and production incidents.
